

# No to War – No to NATO

With the Support of  
INES and IALANA Europe

## US Nuclear Weapons Out of Europe

US Nuclear bombs are still stored in five countries in Europe: Germany, the Netherlands, Belgium, Italy and Turkey.

We would like to invite members of the freedom movement and other interested parties to a meeting within the framework of the ESF to discuss and to reflect on how we can jointly increase the pressure to remove these nuclear weapons from European soil.

The unsatisfactory events of the NPT Conference in May have increased the importance of this issue on the agenda. Taking action for the removal of these US nuclear weapons in Europe is necessary, they must be more intensive and better coordinated – also in Europe—and also among the freedom movements of these five nations.

Together, we would like to discuss this issue further.

**July 1, 2010, 6:00 p.m.**

**In: Taksim Square Hotel (Pera Meeting Room),  
Siraselviler Cad. No.15,  
Taksim – Istanbul**

Hopefully we can come together to concrete agreements, but in any case, we should share what we have to say about this, what we are doing, and what we can do better.
