

Second Press Briefing of the international peace movement AND Invitation to the first international press conferences in Lisboa

The counter actions of the international network No to war – No to NATO are being finalized and will be colorful, creative, huge and non-violent.

The events start on Thursday with a public training of Civil Disobedience (Rossio Square at 16:00), on Friday at 11:00 the opening of the NATO Counter Summit takes place; the events continue on Saturday with a international huge demonstration and end on Sunday with the Peace Assembly (program attached). Throughout the actions, a “camp” will give activists a place to stay and present themselves.

We only act non-violently. The ludicrous labeling of our actions as violent is not effecting our successful political de-legitimization of NATO. In the tradition of Gandhi and Martin Luther King, building on the recent success of Gorleben / Wendland and Stuttgart (both in Germany) we prepare huge, creative, colorful, vibrant and non-violent actions for a change towards peace.

The international peace movement invites you to join our first press conference from Lisboa on Thursday, November 18th at 11:00.
